EDUCATION

California Polytechnic State University

San Luis Obispo, California

Bachelor of Statistics & Data Science

June 2026

- **Coursework:** Data Science, Machine Learning, Calculus, Linear Algebra, Probability and Statistics, Design and Analysis of Experiments, Economics, Intro to Computer Science, Data Structures, Object-Oriented Programming, Probability Theory, Design and Analysis of Algorithms, and Intro to Databases, Survival Analysis.
- **Awards/Honors:** Fall 2023 Dean's List - Bailey College of Science and Mathematics, Winter 2024 Dean's List - Bailey College of Science and Mathematics, Fall 2024 Dean's List - Bailey College of Science and Mathematics.

Woodinville High School

Woodinville, Washington

High School Diploma

September 2021 - June 2022

- **Awards/Honors:** Washington State Honors Award

Walworth Barbour American International School

Even Yehuda, Israel

- **Awards/Honors:** University of Waterloo Math Competition Top 3 Placement

September 2018 - June 2021

WORK EXPERIENCE

Ondine

Bothell, Washington

Data Science Consultant

September 2024 - Current

- Create and improve data analysis and predictive modeling for lab data using Python, Excel, and R.

Ondine

Bothell, Washington

Data Science Intern

June - September 2024

- Created in-depth programs and templates to analyze data from clinical trial labs for pre-surgery infection prevention.
- Data cleaning, transformation, analysis, and user-friendly presentation using Python, Excel, and R.

Aiola

Seattle, Washington

Business Data Analyst Intern

June - September 2023

- Joined the business analysts team supporting aiOla's customers on-boarding.
- Business logic implementation, data transformation, and analysis using Python.

ACADEMIC PROJECTS & ACTIVITIES

AWS Cloud Club Captain

March 2024 - Current

President

- Create and present informational events to help members learn new concepts, launch AWS resources, and build working prototypes of real-world applications.

Portfolio App

September 2022 - Current

Personal Project

- Created an app in Python for a personal portfolio of my analytical statistics projects.
- Includes showcase of importing, managing, and cleaning data from a wide variety of data sources. Producing and interpreting graphics for exploratory data analysis and report presentations. Writing efficient and well-documented code for descriptive and inferential statistics.
- <https://app-hailey.streamlit.app/>

Interactive Video Game

September - December 2023

Project

- Created a cohesive and creative video game by drawing from scratch characters that interact with each other.
- Used object-oriented concepts and design to implement to a moderately sophisticated large program.

Statistics Club

September 2022 - Current

Member

- Elaborate in discussions for problem-solving on teamwork statistical projects.
- Supporting and helping others expand statistical software, programming, and statistical methods knowledge.

SKILLS & TECHNICAL TOOLS

Computer: Python, Java, R, JMP, SAS, SQL

Languages: English, Hebrew, French
