Ex:

I am writing to express my strong interest in the Data Science Intern position at NetNimbus. As a highly motivated and detail-oriented individual with a passion for data analysis and problem-solving, I believe that my skills and background make me an ideal candidate for this role.

As a third-year computer science student at Cal-Poly University with a strong focus on data analysis, I was thrilled to come across your Data Science Internship opportunity at ABC Corporation. Having recently led a successful data mining project for a local non-profit, which resulted in a 20% increase in their fundraising efforts, I am eager to apply my passion for data science and the skills I've acquired in my academic studies to your dynamic team. My proficiency in Python, R, and SQL, coupled with my ability to communicate complex data findings in a clear and understandable manner, aligns perfectly with your stated needs for this role.
